EXPERIENCE

Prosek Partners **New York, NY**
Senior UX Strategist - Freelance *Jan 2025 - Present*

- Developed scalable UX frameworks aligned with business objectives, driving a 35% increase in platform adoption among target audiences.
- Led stakeholder discovery across investment, compliance, and marketing teams at Neuberger Berman and Stellex Capital; surfaced 15+ conflicting requirements and translated them into PRDs, technical specs, and a unified product roadmap.

Blackstone **New York, NY**
Senior Product Owner *Apr 2023 - Dec 2025*

- Maintained comprehensive system documentation and security protocols in strict adherence with organizational compliance standards.
- Owned senior stakeholder relationships across business units; regularly presented data-backed product rationale to executive leadership, translating technical constraints into business language.

Netflix **Remote (LA)**
Product Development Specialist - Contract *Dec 2021 - Mar 2023*

- Managed end-to-end workflow in Airtable across 150+ vendor submissions, reducing data discrepancies by 40% and ensuring reliable inputs for cross-functional decision-making.
- Performed ad hoc analyses on timeline and dependency data; built process maps that made upstream blockers legible to non-technical stakeholders before they became delivery risks.

EquityZen **New York, NY**
UX Lead → Product Owner *Nov 2021 - Jan 2023*

- Established the company's first structured user research program; moderating interviews, conducting usability sessions, and synthesizing qualitative data into roadmap-shaping insights for senior leadership.
- Partnered with engineering to build and ship internal tools for the Sales and Deals teams, translating messy user needs into clean technical requirements and seeing them through to UAT.

Publicis Groupe **Remote (NY)**
UX Designer *Jun 2020 - Oct 2021*

- Collaborated with the UX Lead to establish the strategy, wireframing, prototyping and user testing to deliver patient-facing products that improved engagement by an average of 58%.
- Partnered with PMs, engineers, and compliance stakeholders to translate strict regulatory and brand requirements into actionable design decisions; maintaining momentum across 5 brands and consistently shipping on schedule.

EDUCATION

New Jersey Institute of Technology (NJIT) **Newark, NJ**
Bachelor of Science in Computer Science & Marketing
