EXPERIENCE

Prosek Partners — **New York, NY**
Senior UX Strategist - Freelance — *Jan 2025 - Present*

- Owned the end-to-end design process: scoping projects, defining workflows, designing detailed interactions and visuals, and ensuring quality implementation for Neuberger Berman, Stellex Capital & AIP.
- Facilitated work sessions with executive leadership, product and engineering to contribute to strategy and roadmap.

Blackstone, Inc. — **New York, NY**
Senior User Experience Designer - Contract — *Mar 2023 - Jan 2025*

- Established a scalable design system ensuring visual and interaction consistency across BX.com and Private Wealth Solutions.
- Coached 3 junior designers on UX strategy and design principles helping reduce design debt and iteration time by 30%.
- Partnered with multiple product managers, engineering & marketing to implement design solutions that align with business goals and deliver cohesive, high-impact experiences.

Netflix — **Remote (LA)**
Product Development Specialist - Contract — *Dec 2021 - Mar 2023*

- Oversaw the Production & PD process from development to order placement through delivery for Netflix Power titles (Stranger Things, The Witcher, and Squid Game).
- Managed vendor relationships with global manufacturers to create merchandise that aligned with the Netflix Power titles IP.

EquityZen, Inc. — **Remote (NY)**
Product Designer — *Nov 2021 - Jan 2023*

- Designed data-rich dashboards and AI-informed interfaces for equity transactions, improving task efficiency by 40%. Ultimately, driving 250k in new subscribers and $40M in revenue.
- Built and maintained a design system in Storybook, improving consistency and handoff for engineering.
- Conducted usability testing and synthesized research insights to inform feature prioritization in agile sprints.

Publicis Groupe (SSW) — **New York, NY**
User Experience Designer — *Jul 2020 - Oct 2021*

- Delivered wireframes and sitemaps for 5 AbbVie brands, improving patient engagement metrics by 58%.
- Collaborated with PMs and developers to prototype, test, and refine web flows aligned with accessibility and compliance guidelines.

EDUCATION

New Jersey Institute of Technology (NJIT) — **Newark, NJ**
Bachelor of Science in Computer Science & Marketing
